

The 12th Annual Royal Marsden Head & Neck Virtual Event: "Salvage treatment in head & neck cancer - when, why and how"

Event ID 861

Friday 6 November and Thursday 12 November 2020

NIHR | Biomedical Research Centre at
The Royal Marsden and the ICR

After the success of the last eleven years it is with great pleasure that you are invited to participate in the twelfth Royal Marsden Head and Neck Conference which this year will be a virtual event. Recurrent head and neck cancer represents an increasing burden of disease and although a variety of treatment options exist patients frequently do not have access to them. This year we have therefore chosen to focus on salvage treatment for recurrent head and neck cancer. The virtual event assembles some of the country's leading experts to critically discuss the evidence base for a wide range of pertinent topics. The event will be of particular interest to maxillofacial, ENT or plastic surgeons with an interest in head and neck oncology, as well as clinical/medical oncologists, radiologists and pathologists. Our invitation is extended to consultants and trainees alike, as well as other members of the multidisciplinary team. The event will be interactive with ample opportunity to discuss the evidence presented.

Professor Cyrus Kerawala, Consultant Maxillofacial / Head and Neck Surgeon, The Royal Marsden NHS Foundation Trust
Professor Vinidh Paleri, Consultant ENT / Head and Neck Surgeon, The Royal Marsden NHS Foundation Trust

This course aims to build on the successes of the last eleven years and will explore the treatment options available for recurrent cancer in the head and neck setting. The day will consist of evidence-based lectures that will focus on salvage neck dissection, re-irradiation, palliative surgery and the complication of operating on irradiated tissues. Case-based discussion will be incorporated throughout the day.

CPD accreditation applied for from the Royal College of Physicians

Session 1 Programme – Friday 6 November 2020

- 16:00-16:05** **Welcome and Introduction**
Professor Vinidh Paleri, Consultant ENT / Head & Neck Surgeon
The Royal Marsden NHS Foundation Trust
- 16:05-16:35** **Recurrent disease – what's the size of the problem and who should we treat?**
Dr Emma King, Consultant Head & Neck Surgeon, Poole Hospital NHS Foundation Trust;
Associate Professor of Head & Neck Surgery, University of Southampton
- 16:35-17:05** **Reducing surgical complications in the irradiated patient**
Mr Jeremy McMahon, Consultant Oral & Maxillofacial/Head and Neck Surgeon
Southern General Hospital, Glasgow, Scotland
- 17:05-17:35** **Salvage neck dissection: when and how?**
Mr Somiah Siddiq, Consultant ENT Surgeon,
University Hospitals Birmingham NHS Foundation Trust
- 17:35-18:05** **Break / Sponsors Virtual Exhibition**
- 18:05-18:35** **Reconstruction for recurrent disease – is keeping it simple the best plan A?**
Mr Tim Blackburn, Consultant Oral Maxillofacial / Head & Neck / Facial Plastic Surgeon, Manchester University NHS Foundation Trust

18:35-19:05 **Discussion**

19:05-19:35 **Debate: COVID impact on head and neck diagnostic services**

19:35-19:40 **Summary & Close**

Session 2 Programme – Thursday 12 November 2020

- 16:00-16:05** **Welcome and Introduction**
Professor Cyrus Kerawala, Consultant Maxillofacial / Head & Neck Surgeon
The Royal Marsden NHS Foundation Trust
- 16:05-16:35** **Re-irradiation – SABR, protons or good old-fashioned photons?**
Dr James Good, Consultant Clinical Oncologist, University Hospitals Birmingham
- 16:35-17:05** **Minimally-invasive surgery for recurrent disease**
Professor Vinidh Paleri, Consultant ENT / Head & Neck Surgeon
The Royal Marsden NHS Foundation Trust
- 17:05-17:35** **Functional impact of treatment for recurrent disease – is it really worth it?**
Dr Justin Roe, Consultant and Joint Head, Department of Speech, Voice and Swallowing
The Royal Marsden NHS Foundation Trust
- 17:35-18:05** **Break / Sponsors Virtual Exhibition**
- 18:05-18:35** **Systemic treatment for recurrent disease**
Professor Kevin Harrington, Professor of Biological Cancer Therapies
The Royal Marsden NHS Foundation Trust
- 18:35-19:05** **Discussion**
- 19:05-19:35** **Will trials have the answer?**
Dr David Thomson, Consultant Clinical Oncologist and Honorary Senior Lecturer
The Christie NHS Foundation Trust, Manchester
- 19:35-20:00** **Debate: COVID impact on head and neck cancer therapy**
- 20:00-20:05** **Summary & Close**

The content will be available online for 30 days after the event
